Profile

As a dedicated fourth-year Bachelor of Science student in Computer Engineering, I am passionate about leveraging technology to solve complex problems. Throughout my academic journey, I have honed my skills in various programming languages and project management. I am eager to apply my theoretical knowledge to real-world challenges in the field of computer engineering. My goal is to contribute to innovative projects that push the boundaries of technology while continuously expanding my expertise in this ever-evolving field.

Education

Istanbul Technical University, Bachelor of Science in Computer Engineering September 2021 –

- **Coursework:** Computer Architecture, Data Structures and Algorithms, Operating Systems

Experience

Projects

GPR and AI for Building Digital Simulation March 2024 -

- A project that aims to combine GPR machine and Artificial Intelligence to simulate the building and reveal its weaknesses.
- Tools Used: C++

Skills Profile

Programming Languages: C++, C, SQL

Languages: English (Upper-Intermediate), Turkish (Native), Italian(Entry-Level)

Developer Tools: VS Code, Git
